

## Retinoic Acid Receptor alpha/beta Ab

Images(1)

| Cat.#: DF10347 | Concn.: ~1mg/ml   | Mol.Wt.: 50kDa                 |
|----------------|---|--------------------------------|
| Size:          | Source: Rabbit  | Clonality: Polyclonal          |
|                |   |                                |
| Application:   | WB 1:500-1:2000   |                                |
|                | *The optimal dilutions should be determined by the end user.  |                                |
| Reactivity:    | Human,Mouse,Rat   |                                |
| Storage        | Pabhit IcC in phosphata buffarad salina   | pH 7.4 150mM NoCl 0.02%        |
| Storage:       | Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at -20 °C. Stable for 12 months from |                                |
|                | date of receipt.  |                                |
| Purification:  | The antiserum was purified by peptide a   | ffinity chromatography using   |
|                | SulfoLink <sup>™</sup> Coupling Resin (Thermo F   |                                |
| _              |   |                                |
| Immunogen:     | A synthesized peptide derived from hum  | 1                              |
|                | alpha/beta, corresponding to a region wi  | thin the internal amino acids. |
| Uniprot:       | P10276/P10826   |                                |
| 1              |   |                                |

Western blot analysis of Retinoic Acid Receptor / in lysates of HepG2, using Retinoic Acid Receptor / Ab(DF10347).

<code>IMPORTANT:</code> For western blot, incubate membrane with diluted primary Ab in 5% w/v milk , 1X TBS, 0.1% Tween®20 at 4°C with gentle shaking, overnight.

For Research Use Only. Not for use in diagnostic and therapeutic procedures. Not for resale without express authorization.
