

## Cytochrome P450 2C8 Ab

Images(2)

| Cat.#: DF3575<br>Size: | Concn.: ~1mg/ml<br>Source: Rabbit                                                                                                                              | Mol.Wt.: 56kD<br>Clonality: Polyclonal |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------|
| Application:           | WB 1:500-1:2000, IHC 1:50-1:200<br>*The optimal dilutions should be determined by the end user.                                                                |                                        |
| Reactivity:            | Human, Mouse, Rat                                                                                                                                              |                                        |
| Storage:               | Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at -20 °C. Stable for 12 months from date of receipt. |                                        |
| Purification:          | The antiserum was purified by peptide affinity chromatography using SulfoLink <sup>™</sup> Coupling Resin (Thermo Fisher Scientific).                          |                                        |
| Immunogen:             | A synthesized peptide derived from human Cytochrome P450 2C8, corresponding to a region within the internal amino acids.                                       |                                        |
| Uniprot:               | P10632                                                                                                                                                         |                                        |

Western blot analysis of extracts from Mouse testis, using Cytochrome P450 2C8 Ab at 1/1000 dilution. Observed bands:45kD.

<code>IMPORTANT:</code> For western blot, incubate membrane with diluted primary Ab in 5% w/v milk , 1X TBS, 0.1% Tween®20 at 4°C with gentle shaking, overnight.

For Research Use Only. Not for use in diagnostic and therapeutic procedures. Not for resale without express authorization.
