MSMB Ab

Images(1)

Cat.#: DF6720 Size:	Concn.: ~1mg/ml Source: Rabbit	Mol.Wt.: 13kDa Clonality: Polyclonal
Application:	WB 1:500-1:2000, IHC 1:50-1:200 *The optimal dilutions should be determined by the end user.	
Reactivity:	Human,Mouse	
Storage:	Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at -20 $^\circ$ C. Stable for 12 months from date of receipt.	
Purification:	The antiserum was purified by peptide affinity chromatography using SulfoLink [™] Coupling Resin (Thermo Fisher Scientific).	
Immunogen:	A synthesized peptide derived from human MSMB, corresponding to a region within the internal amino acids.	
Uniprot:	P08118	
Description:	The protein encoded by this gene is a m binding factor family. It is synthesized b gland and secreted into the seminal plass activity. It may have a role as an autocri and other female reproductive tissues. T is found to be decreased in prostate can transcript variants encoding different iso The use of alternate polyadenylation site	by the epithelial cells of the prostate ma. This protein has inhibin-like ine paracrine factor in uterine, breast The expression of the encoded protein cer. Two alternatively spliced oforms are described for this gene.

Western blot analysis of HepG2 cell lysates, using MSMB Ab. The lane on the left was treated with the antigen-specific peptide.

<code>IMPORTANT:</code> For western blot, incubate membrane with diluted primary Ab in 5% w/v milk , 1X TBS, 0.1% Tween®20 at 4°C with gentle shaking, overnight.

For Research Use Only. Not for use in diagnostic and therapeutic procedures. Not for resale without express authorization.
