

LCN2 Ab

[References\(7\)](#) [Images\(6\)](#)

Cat.#: DF6816	Concn.: ~1mg/ml	Mol.Wt.: 23kDa
Size:	Source: Rabbit	Clonality: Polyclonal
Application:	WB 1:500-1:2000, IHC 1:50-1:200 *The optimal dilutions should be determined by the end user.	
Reactivity:	Human,Mouse,Rat	
Storage:	Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at -20 °C. Stable for 12 months from date of receipt.	
Purification:	The antiserum was purified by peptide affinity chromatography using SulfoLink™ Coupling Resin (Thermo Fisher Scientific).	
Immunogen:	A synthesized peptide derived from human LCN2, corresponding to a region within the internal amino acids.	
Uniprot:	P80188	
Description:	Lipocalin-2, a member of the lipocalin family of proteins, was originally identified as a gelatinase-associated component of neutrophil secretory granules . Lipocalin-2 is involved in innate immunity, iron homeostasis, and apoptosis. Lipocalin-2 limits bacterial growth by binding to bacterial siderophores and sequestering iron (2-4). In mammalian cells, iron-loaded lipocalin-2 binds to its receptor, 24p3R, and is internalized, thereby releasing iron and increasing the intracellular iron concentration . Conversely, iron-free lipocalin-2 promotes apoptosis . Lipocalin-2 is also expressed in adipose tissue and promotes insulin resistance in cultured mouse adipocytes .	

Western blot analysis of extracts from COLO205 cells(heat-shock treatment), using LCN2 Ab at 1/1000 dilution.
Observed bands:30kD.

IMPORTANT: For western blot, incubate membrane with diluted primary Ab in 5% w/v milk , 1X TBS, 0.1% Tween@20 at 4°C with gentle shaking, overnight.
